

Progress and plans for the use of radiance data in the NCEP global and regional data assimilation systems

NOAA/NCEP/EMC and JSCDA

Presented by John Derber

Subjects covered in Poster

- Current use of satellite data in regional and global systems
- Global upgrade (may happen in May (make that June))
- Global data upgrade (July-Aug. 2008)
- Ongoing NCEP/JCSDA data assimilation projects
- All of our mistakes

– not really, but I thought maybe this would get people to come see the poster (like a auto accident)
